AREA OF SPECIALTY

Dr. Hassell has over 10 years of applied professional experience coordinating and overseeing diverse healthcare systems and clinical operations, where he has served as an administrator of day-treatment and intensive long-term-care facilities for patients with severely fragile medical conditions and complex neurodevelopmental disabilities. Professor Hassell previously functioned as a site preceptor for the BHSA internship program, and is excited to support its continued expansion—throughout the curriculum and across a range of health services settings. He also hopes to focus on the use of simulation training at CNHS to incorporate health services administration students in the interprofessional oversight and support of patient care.
