OPEN TO MEMBERS who trained & served in select military classifications and who were discharged in the last two (2) years or within five years for those who have been employed in a civilian healthcare role: Combat Medic, Flight Medic, or Hospital Corpsmen

CREDIT FOR MILITARY TRAINING
Curriculum is designed to accelerate graduation and provide credit by examination whenever possible.

DEDICATED ADVISOR & MENTORS
The program features a dedicated advisor, program tutor/coach, and RN Veterans who will provide individualized mentoring.

ATTENTION MILITARY MEDIC VETERANS AND RESERVISTS
This is a special project funded by a grant from the Health Research Services Administration (HRSA) and by FIU College of Nursing and Health Sciences. This project is designed specifically to assist recent veterans and current reservists who have prior military medical training and service experience to qualify for advanced standing credit towards a Bachelor of Science in Nursing (BSN) degree and licensure eligibility as a Registered Nurse (RN).

Applicants ideally have previously earned an associate’s degree or higher, and have completed the prerequisite nursing courses with a minimum grade of “C.” Applicants must obtain a 70% overall minimum score and a 62% science minimum score on the TEAS (v5) Nurse Entrance Exam. Selected applicants must pass a course equivalency exam of basic nursing knowledge and skills to receive advance credit. Applicants must satisfy the university core curriculum through prior coursework, credit-by-exam, or degree.
