### **Leader of an initiative to develop a Palliative Care Institute Considered and Supported by the President of the University of Maryland and University of Maryland Medical Center Administrative Team**

#### **Vision Statement:**

This initiative represents an unprecedented model which intersects the mission, vision, and resources of a University System involving the Schools of Nursing, Medicine, Social Work, Pharmacy and Law and a Medical Health Care System and its Affiliated Hospitals to achieve local-global goals of quality health care. This will be achieved through a free-standing Palliative Care and Hospice Institute which will offer holistic healing through interprofessional collaboration and the integration of science and art to address the physical, emotional, social, cultural, spiritual, and ethical care of children (prenatal through young adult), adults, families and local, national or global communities experiencing any serious, life-threatening, chronic, or life-limiting illnesses, or traumatic events. Palliative care and hospice care will be provided across the life span, disease/illness trajectories, and health care settings. The goal is to provide Palliative Care and Hospice Care within and outside of the context of faculty practice that is beyond

excellence and which will be achieved through the integration of evidence-based practice, research, education, health care policy reform, global health, ethics, complementary therapies and community advocacy, to insure unified, organized, and interprofessional responses to local, national, or global crises or imperatives.
