# Master of Science in Athletic Training

The Master of Science in Athletic Training curriculum is grounded in hands-on, learner-centered education and evidence-based practice to equip students with the clinical and interpersonal skills, critical thinking, problem solving and ethical reasoning abilities required to be successful in the profession. The FIU athletic training faculty also incorporate technology through the state-of-the-art Simulation Teaching And Research (STAR) Center, to enhance the FIU athletic training clinical education experience.

Upon completion of the program, graduates will be eligible to take the Board of Certification exam.

## Admissions Minimum Requirements
